Spectrazonal Photography

[] has agreed to give a briefing on their Multiband spectrazonal photography being conducted for the Arms Control and Development Agency.

STATINTL

This visit was made with [] for the purpose of previewing their presentation.

STATINTL

The outline of the presentation is attached. We went over it for several hours. Both George and I suggested that they put more emphasis on the exploitation techniques. This is somewhat difficult because their work has been largely in collection.

STATINTL

STATINTL

The strength of [] talk was his presentation of his aerial photos for several spectral bands and the conclusions he was able to draw from them which solved the problems he had. The listener was then able to extrapolate logically to the potential solution of his own problems. [] will attempt the same thing in their presentation.
